Tel: 973-263-7200, ext. 7209 Fax: 973-263-7241

Date: October 15, 2020
To: All Principals
From: Dr. Alfred Savio
Business Administrator/Board Secretary
Subject: AHERA and Pest Management Notice 2020-2021

Good morning,

Please review the attached 2020-2021 notices for AHERA and Pest Management Notice and assure a copy of **each is POSTED and also filed respectively in your IPM AND AHERA binders** for the onset of the new school year.

PLEASE NOTE:

- Each actual notice will be electronically circulated to ALL parents through the Virtual Backpacks.
- If you are aware of any parent that is NOT participating in the “electronic” system, please print a hard copy to send home with the respective student.
- Each notice will be posted at the District website and in the Daily Record Newspaper of record for the first week of school.

If you have any questions or concerns, please contact the business office.

Thank you.

Annual Integrated Pest Management Notice For School Year 2020-2021

October 2020

Dear Parent, Guardian, or Staff Member:

This notice is being distributed to comply with the New Jersey School Integrated Pest Management Act. The Parsippany-Troy Hills Public School District has adopted an Integrated Pest Management (IPM) Policy and has implemented an IPM Plan to comply with this law. IPM is a holistic, preventive approach to managing pests that is explained further in the school's IPM Policy.

All schools in New Jersey are required to have an Integrated Pest Management Coordinator (IPM Coordinator) to oversee all activities related to IPM and pesticide use at the school.

The IPM Coordinator for the Parsippany-Troy Hills Public School District is:

Daniel McDougal, Supervisor of Buildings & Grounds

Business Phone number: 973-428-7512 ext. 7300

Business Address: Maintenance Office, 160 Old Bloomfield Ave, Parsippany, NJ 07054

The IPM Coordinator maintains the pesticide product label, and the Material Safety Data Sheet (MSDS) (when one is available), of each pesticide product that may be used on school property. These documents are available for review. The IPM Coordinator is also available to parents, guardians, and staff members for information and to discuss IPM activities and pesticide use at the school.

Although it has been and continues to be the general practice of the Parsippany-Troy Hills Board of Education, to eliminate the use of pesticides in school buildings or on school grounds, the district may use pesticides to control pests as part of its pest management plan.

As part of a school pest management plan Central Middle School may use pesticides to control pests. The United States Environmental Protection Agency (EPA) and the New Jersey Department of Environmental Protection (DEP) register pesticides to determine that the use of a pesticide in accordance with instructions printed on the label does not pose an unreasonable risk to human health and the environment. Nevertheless, the EPA and the DEP cannot guarantee that registered pesticides do not pose any risk to human health, thus unnecessary exposure to pesticides should be avoided. The EPA has issued the statement that where possible, persons who are potentially sensitive, such as pregnant women, infants and children, should avoid unnecessary pesticide exposure.

The following pesticides have been used at this location in the past 12 months:

Trade Name	Common Name	EPA Registration #
No pesticides applied.		

If there are any questions regarding this notice, please call Dan McDougal at the number indicated above.

Dr. Barbara Sargent, Superintendent of
Schools

Dr. Alfred Savio, Business Administrator/Board
Secretary
