

Edison and the Rise of Innovation

Main Library
449 Halsey Road
Parsippany, NJ 07054
www.parsippanylibrary.org

Monday, June 12th
7-8:30pm

Thomas Edison National Historical Park Archivist Leonard DeGraaf will speak about his book, *Edison and the Rise of Innovation*.

Thomas Edison was history's most prolific inventor who did more than just invent the phonograph, incandescent electric light and motion picture camera, he translated ideas into commercial products, creating dozens of companies to manufacture and market his inventions.
