CODING CAMP: Java 101

Missed it the first time?! We're offering intro sessions on Java once again!

Have you ever wondered how the digital world works?

In this computer programming series, students will get a sneak peek into the life of a computer scientist by learning the basics of Java, an easy to learn programming language commonly used among software developers.

While exploring Java, students will apply their math and problem-solving skills to make a program that works like a calculator! No programming experience required. *For students in 6th, 7th, and 8th grade.*

January 4, 11, 18 and 25 @ 7 pm

Main Library Tech Center.

Students must attend all four sessions in order to finish final project.

Registration is required and is limited. Register online for programs at www.parsippanylibrary.org by clicking on the teen calendar of events or by calling 973-887-5150 ext. 208.
