

The Parsippany Environmental Advisory Committee  
and the Parsippany Library will present a documentary film

## A PLASTIC OCEAN

**Wednesday, October 10 6:30 - 8:30pm**

**at the Parsippany Main Library**

**449 Halsey Road, Parsippany NJ 07054**

A Plastic Ocean documents the newest science, proving how plastics, once they enter the oceans, break up into small particulates that enter the food chain where they attract toxins like a magnet. These toxins are stored in seafood's fatty tissues, and eventually consumed by us. Join us to view this film and find out how you can help to save the environment.

# A PLASTIC OCEAN

WE NEED A WAVE OF CHANGE.

A Plastic Ocean documents the newest science, proving how plastics, once they enter the oceans, break up into small particulates that enter the food chain where they attract toxins like a magnet. These toxins are stored in seafood's fatty tissues, and eventually consumed by us. Join us to view this film and find out how you can help to save the environment.
